

Size Standards: Rectangular Shades

APPLAUSE® HONEYCOMB SHADES

HOW TO USE THE SIZE STANDARDS CHARTS

The Size Standards charts are designed to be a quick reference to size standards, price charts and where to find further product specifications. Price charts are referenced by chart number next to the fabric style and further product specifications are referenced by page number under the application. Minimum sizes and other notes are included at the bottom of each chart. **Important: shade dimensions must be equal to or less than the maximum dimensions (width and height) and equal to or greater than the minimum dimensions (width and height) to be within specification guidelines.**
